

“Hermann Bettels GmbH & Co. KG” takes over “WEC Turmbau Emden GmbH”

The “Toren Productie B.V.” has reached an agreement with “Hermann Bettels GmbH & Co. KG” to take over the precast concrete plant “WEC Turmbau Emden GmbH”. The result of the intensive sales negotiations is that “Hermann Bettels GmbH & Co. KG” became the sole shareholder of the Emden company as of June 1, 2021 and thus the successor to “Toren Productie B.V.”

The sale takes place as part of the restructuring of the main customer “ENERCON”, through which the company is concentrating on its core business of developing, selling and servicing onshore wind turbines.

About the “WEC Turmbau Emden GmbH”:

“WEC Turmbau Emden GmbH” was founded in 2005 for the exclusive manufacture of concrete tower segments for “ENERCON GmbH”. With its 180 employees, the plant has a turnover of approx. 25 million euros. At the production site in Emden, there are manufacturing capacities of around 180.000 m³ Beton of concrete or prefabricated parts on a production and storage area totaling around 90.000 m².

Nowadays, the service portfolio includes all activities related to concrete: large-volume precast concrete parts such as precast foundations, foundation cover plates, platform elements, safety barriers, supporting structures and, of course, concrete towers for wind turbines.

About the “Bettels-Group”:

The Bettels company has existed for 140 years and is a national group of companies with various business activities in the areas of ready-mixed concrete, infrastructure, disposal / raw materials, transport logistics, energy generation and energy supply for private and industrial customers. The group of companies employs around 1.000 people, who currently generate annual sales of EUR 250 million.
